Application No. 10/613,880

ABSTRACT OF THE DISCLOSURE

~~"Inflatable~~ (currently amended) Self-Inflatable and Fully Adjustable Foot and Seat Support for Travelers" will accommodate travelers with different leg characteristics: height, deformity, injuries. Bellows or accordion sidewalls will fully adjust shape, height or angulations of the foot rest. Velcro straps attached to the sides of a foot rest will configure the shape and retain its configuration even after deflation, for storage or transport. In addition Velcro straps will permit securing various attachments to feet or to the bag itself. Allowing comfortable and worry free use of the air pillow even during sleep or nap by securing the connection between feet and bag itself. Lanyard attached to the bag itself or food tray will facilitate easier placement or removal of above-mentioned pillow on or from the floor. ~~Bathtub design~~-(currently amended) Cut out at the bottom of the air pillow will permit minimum amount of gas to fully inflate a foot rest to its full dimensions and its full function.
